I am looking forward to the opportunity of seeing you and your colleagues in London.

Please feel free to forward this information to anyone who may be interested in this subject, as well as your colleagues.

Sincerely yours,

[Signature]

President of JITI
Makio WASHIZU

Encl: IMO Circular Letter
Program & Registration Form

Endorsement: The Japan International Transport Institute (JITI) was established in 1993 as a part of the Institute for Transport Policy Studies (ITPS), a public association approved by the Act of 1981. JITI is a research institute dedicated primarily with the international transport policy, including maritime research. Its offices are located in Tokyo and Washington, D.C.

Seminar

3rd Annual Seminar
September 2010

This seminar is free of charge for partnership, but advance registration is required for non-partners.

As you are already aware, in this year's seminar, issues have become a primary topic in the maritime industry. The IMO has announced the matter, "Go to sea in November 2008. On nucleos and maritime field," at the International Maritime Organization (IMO) headquarter in London on 11 May 2010. This date is one day prior to the 69th anniversary of the Maritime Safety Committee (MSMC) (21 May 2010). This is a remarkable coincidence.

A reception will follow the seminar, which will be held at the International Maritime Institute, which will be held.

On behalf of Japan International Transport Institute (JITI), I would like to invite you to our seminar.

17 March 2010
